

Mr. Fellegi! lifted our hearts with an evening of his wonderful music. What a beautiful ending to our stay in this remarkable city.

Dear Mr. Fellegi,

The experience of the home concert was very moving emotionally. I have attended many classical concerts - orchestra and chamber music - but have never had the feeling of direct connection with the performer and the music provided by the home concert.

It is something I would recommend as of great benefit to someone just coming in contact with classical music. One can really feel the music in a special and unique way. Thank you very much
